

TECHNICAL DATA SHEET

JOKISCH FOSIA MQL MICRO (Jokisch ProLub Micro Jet)

Environmentally friendly and cost-saving alternative in lubrication technology.

APPLICATION

- Turning
- Milling
- Drilling
- Reaming
- Sawing
- Tapping
- Engraving
- Grinding
- Punching
- Drawing
- Bending
- Forming

CHARACTERISTICS

- Optimal fixation to the machine with a magnet foot
- Separate settings possible for air and fluid flow
- It is possible to select up to 2 nozzles separately
- Optical low oil level warning
- Different operating modes (air/electrical mode)
- Easy handling
- Reduction of workload for the operating staff
- Can be adjusted to the operating process

ADVANTAGES

- Minimal need of lubrication
- No disposal costs
- The effort of cleaning is minimized
- Increases the tool life
- Optimal coll and lubrication effect
- Universally usable
- No maintenance is necessary

TECHNICAL SPECIFICATIONS

	UNIT	JOKISCH FOSIA MQL MICRO
Viscosity range	cm ²	10-46
Input pressure	kg/cm ²	4-8
Air consumption at 5kg/cm ²	m ³ /min.	0,05
Tank size	Liter	1,2
